Skin Care and Basic Highlights & Lowlights

This week we will look at caring for our skin & then begin our first project.

Learn how to properly wash your face? I know that may sound *silly to some* but stage makeup is heavier & thicker than street makeup. Knowing how to properly prepare your skin & remove the makeup thoroughly is key.

If you have not acquired your Supracolor Makeup Kit yet, please get it by Thursday's class. If you need help, email me ASAP.
